

C2CEN Intranet page

- Dated stale design
- Header design cluttered
- Slow loading
- Old table layout
- Information not very interactive
- Content was not comprehensive of what's relevant to users in the unit

Before:

U.S. Department of Homeland Security
 U.S. COAST GUARD

Command & Control Engineering Center - A Center of Excellence
 CGWEB OFFICIAL INTRANET SITE

If there are items that you would like to see available to ALL C2CEN users, please email the webmaster with your recommendations. Thank you.

C3CEN Intranet page

- New logo, new name
- New header design
- Fast loading
- Modern coding standards
- Navigation is organized according to subheader categories and relevant to users' mental model and terminology
- Content is dynamic and frequently updated
- Content is comprehensive of what's relevant to users in the unit and links to all of the useful content available on the site

Process:

- Customer interviews and meetings
- Wireframes
- SharePoint development
- Logo graphic design

End Results:

- Positive feedback from users
- Design is used as a model for other CG units
- Higher traffic- more users are utilizing this site on a regular basis
- Users are kept informed of relevant timely information, so they can perform their duties efficiently
